How to *use this*

1

Fill it alone

Do the deciding pages before anyone gets loud in the chat.

2

Then together

Share the money pages early. Awkward now beats awkward later.

3

Print or tablet

A4 or A5, or write on it in any notes app.

THE ONE RULE

Nobody books anything until the budget ceiling page is signed off by every single person. That page is why this planner exists.

GROUP
APPROVED

Everyone writes the true maximum they can spend, all in. No performing.

The group budget is the lowest number on this page. Not the average.
